

## Overview of types

	$I_R$ A	$V_R$ V	Lines	Construction	EMP protection	Type		
<b>Filters for power lines</b>								
100 dB from 150 kHz	16 ... 100	250 ... 440	2, 4	Single chokes	On request	B84299*B001 B84299*E001		
100 dB from 14 kHz	16 ... 150	250 ... 440	2, 4		On request	B84299*B003 B84299*E003		
100 dB from 150 kHz	40, 100	250 ... 440	2, 4	Low leakage current, current- compensated chokes	On request	B84261		
100 dB from 14 kHz	16 ... 100	250 ... 440	2, 4		On request	B84263		
Filter cabinets	300 ... 1600	250 ... 440	4		On request	B84299G0059/ G0065/G0069		
<b>Filters for communication lines</b>								
Analog systems and control lines	0.1 ... 1	100	2, 20	Application- specific single chokes or current- compensated chokes	Option	B84312		
ISDN systems	0.1	100	1 ... 2 pairs				B84312	
Filter cabinets			336 ... 500 pairs				B84299G0056 B84299G0111	
Filter boxes			26 ... 120 pairs				B84299G0114 ... B84299G0152	
<b>EMP protection units</b>								
For analog communication lines and control lines	1	60	10 pairs	Single chokes		B84320 Z0010H033		
	1	140	10 pairs			B84320 Z0010H035		
For PCM data lines	0.1	10	10 pairs				B84320 Z0010H034	
<b>Installation accessories</b>								
Connector fittings, screw plugs, dummy panel, adapter flange, bracket adapter						B84298A B84298M
